

London the place for me?
Came for a job yet I was deceived
492 Caribbeans sailed across the sea
to live a life they thought would be free.

We fought in their war
Shed blood and tears with them
yet we shall not be accepted
or seen as one of the lads.

They call me a dog
or one of the blacks,
But why do they call me names after I
served their country
I did it for the queen
I did it for their kids
yet they still don't want London to be the place
I live
